## STAINLESS STEEL MULTI-PURPOSE WOOD SCREW

Star  
Drive

Flat  
Head

**ACQ**  
COMPATIBLE

- Aggressive Knurl & Threads
- Type 17 Point

TER 1911-02

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners should be considered if available.

A Marmon |  
Berkshire Hathaway  
Company

53 N. 15TH STREET STE #1 • BILLINGS, MT 59101 • 1.800.726.4803

### BENEFITS & FEATURES:

- 316 Grade Stainless Steel for Superior Interior/Exterior Corrosion Resistance
- Marine Grade Stainless Steel with high tensile, torque, and shear strength
- Deep Six-Lobe Star Drive Recess reduces cam-out end load
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Under-head cutting nibs to aid in self countersinking
- Aggressive knurl enlarges hole to reduce splitting and drag to help draw lumber together
- Type 17 tip for faster precise starts which eliminate "walking"
  - Provides for easy insertion without pre-drilling
- Aggressive Thread for great withdrawal strength

### COMMON USES INCLUDE:

- Coastal Area Construction
- Salt Spray Exposure
- Corrosive Environments Such as:
  - Livestock Confinement Operations
  - Pool Decks
- Laminated Beams
- Girders
- Fencing
- Deck Frames, Deck Boards, and Deck Posts

*NOTE: Always follow lumber manufacturer's recommendations.*

- Type 17 Point

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners should be considered if available.

### BENEFITS & FEATURES:

- 316 Grade Stainless Steel for Superior Interior/Exterior Corrosion Resistance
- Marine Grade Stainless Steel with high tensile, torque, and shear strength
- Deep Six-Lobe Star Drive Recess reduces cam-out end load
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Small head design for a clean finished look
- Under-head cutting nibs to aid in self countersinking
- Precision cut knurl enlarges hole to reduce splitting and drag to help draw lumber together
- Type 17 tip for faster precise starts which eliminate "walking"
  - Provides for easy insertion without pre-drilling
- Aggressive Thread for great withdrawal strength
- Self-Countersinking Screw Head (0.24" Head Diameter)

### COMMON USES INCLUDE:

- Coastal Area Construction
- Salt Spray Exposure
- Corrosive Environments Such as:
  - Livestock Confinement Operations
  - Pool Decks
- Decking
- Siding
- Trim Boards
- Window Trim Boards
- Door Trim Boards
- General Construction Use

*NOTE: Always follow lumber manufacturer's recommendations.*

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available.

### BENEFITS & FEATURES:

- 316 Grade Stainless Steel for Superior Interior/Exterior Corrosion Resistance
- Marine Grade Stainless Steel with high tensile, torque and shear strength
- Use where harsh environmental conditions require fasteners to deliver corrosion protection
- Deep Six-Lobe Star Drive Recess reduces cam-out end load
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Tiny finish head for a clean professional look
- Precision cut knurl enlarges hole to reduce splitting and drag to help draw lumber together
- Type-17 tip for faster precise starts which eliminate "walking"
  - Provides easier insertion without pre-drilling
- Aggressive thread for great withdrawal strength

### COMMON USES INCLUDE:

- Coastal Area Construction
- Salt Spray Exposure
- Corrosive Environments Such as:
  - Livestock Confinement Operations
  - Pool Decks
- Exterior and Interior Wood Framing
- Decking, Rails, Fencing
- Door and Window Installation

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners should be considered if available. RWH is not available in stainless.

A Marmon |  
Berkshire Hathaway  
Company

53 N. 15TH STREET STE #1 • BILLINGS, MT 59101 • 1.800.726.4803

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile and high shear strength
- Triple Layer ACQ Compatible Coating for Exterior or Interior use
  - Also available in:
    - ACQ Compatible White Coating
    - ACQ Compatible Bronze Coating
    - ACQ Compatible Ruspert Coating in an attractive matte black finish
- Peak Performance™ Lubrication, reducing torque for a smoother drive (not available with white coating)
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Round Washer Head increases pull through strength
- V-Cut notches on threads to cut fibers for easier insertion at lower torque
- Type 17 tip for faster precise starts which eliminate "walking"
  - Provides for easy insertion without pre-drilling
- Backed by certified independent testing (TER 1911-03)

### COMMON USES INCLUDE:

- Cabinetry
- Furniture
- Windows
- Siding & Trim
- General Construction Projects

*NOTE: Always follow lumber manufacturer's recommendations.*

53 N. 15TH STREET STE #1 • BILLINGS, MT 59101 • 1.800.726.4803

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile and high shear strength
- Triple Layer ACQ Compatible Bronze Coating for Exterior or Interior use
- Deep Six-Lobe Star Drive Recess reduces cam-out end load. Handles twice the torque as Phillips or Square Drive while extending the life of the bit.
- Available drive and shank sizes:
  - T20 (#8)
- Large diameter washer head ensures solid installation
- Type 17 notched point starts quickly without “walking” and eliminates the need for predrilling in most wood surfaces
- Notched threads cut through fibrous material, reducing torque for maximum holding power
- Prevents damaging or overtightening of veneer panels compared to nail installation
- Fully threaded shank design to securely hold veneer panels to wall sheathing without coming loose
  - #8 x 1 5/8" not for application over insulation
  - #8 x 2 1/4" meant for applications over 1" insulation
- Stone Veneer Screw backed by certified independent testing (TER 1911-093)

### COMMON USES INCLUDE:

- Installation of stone and/or cultured stone veneer

*NOTE: Always follow lumber manufacturer's recommendations.*

### Available Sizes: 1-5/8" & 2-1/4"

AVAILABLE DRIVE  
AND SHANK SIZES:

- V-Cut Notches
- Type 17 Point

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available. *STH available in Stainless.*

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- Triple Layer ACQ Compatible Bronze Coating for Exterior or Interior use
  - > Also available in white
- Peak Performance™ Lubrication, reducing torque for a smoother drive (not available with white coating)
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Under-head cutting nibs to aid in self countersinking
- Precision cut knurl enlarges hole to reduce splitting and drag to help draw lumber together
- V-Cut notches on threads to cut fibers for easier insertion at lower torque
- Type-17 tip for faster precise starts which eliminate "walking"
  - Provides easier insertion without pre-drilling
- Aggressive thread for great withdrawal strength
- Self-Countersinking Screw Head (0.24" Head Diameter)

### COMMON USES INCLUDE:

- Exterior and Interior Wood Framing
- Exterior Trim Boards
- Installation of Windows and Doors
- Decks and Rails
- Porches
- Fencing
- Siding
- Roofing
- General Construction, Remodeling, and Repair

*NOTE: Always follow lumber manufacturer's recommendations.*

## FINISH SCREW WITH REVERSE THREAD

Star  
Drive

Finish  
Head

**ACQ**  
COMPATIBLE

- Bronze Coating
- Composite Compatible
- Type 17 Point

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners should be considered if available. FSRT is not available in stainless.

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- ACQ Compatible Coating for Exterior or Interior use
- Designed specifically for use in composite and cellular PVC trim material
- Reverse thread prevents "mushrooming" in composite and cellular PVC trim material
- Peak Performance™ Lubrication, reducing torque for a smoother drive
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Available drive and shank sizes:
  - T10 (#7 / 0.112 in)
  - T10 (#8 / 0.119 in)
- Type 17 tip for faster precise starts which eliminate "walking" and reduces torque for easy installation
  - Provides for easy insertion without pre-drilling
- Tiny head makes the screw almost disappear beneath the surface for a clean finished look

### COMMON USES INCLUDE:

- Finish & Trim work
- Composite and cellular PVC Trim Boards (interior and exterior)
- Interior MDF trim installation
- PVC brickmold on exterior doors

*NOTE: Always follow lumber manufacturer's recommendations.*

### Available Sizes: #7 x 2-1/2" and #8 x 3"

## BLACK LOG TIMBER LAG SCREW

Hex Washer  
Head

**ACQ**  
COMPATIBLE

- Black Ruspert Coating
- Aggressive Threads
- Type 17 Point

TER 1907-02

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available. BL is not available in stainless.

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- ACQ Compatible 1000 hr. Ruspert coating in an attractive matte black finish useful with many brands of outdoor or indoor decorative hardware
- Peak Performance™ Lubrication, reducing torque for a smoother drive
- Approved for use in ACQ pressure treated lumber
- Type 17 tip for faster precise starts which eliminates "walking"
  - Provides for easy insertion without pre-drilling
- Aggressive thread for greater withdrawal strength
- Structural Hex Head Screw backed by certified independent testing (TER 1907-02)
  - International Building Code and International Residential Code Compliant
- 6" Black Log (BL) screws are a great alternative to labor intensive hurricane clips
  - For rafter or truss to double-top plate applications, the 6" BL can easily be installed at a 15-30° angle and is a code-compliant

### COMMON USES INCLUDE:

- |                    |                     |              |
|--------------------|---------------------|--------------|
| • Truss Hold-Down  | • Laminated Beams   | • Deck Posts |
| • Log Construction | • Ledger Boards     | • Fencing    |
| • Timber Frames    | • Landscape Timbers |              |
- NOTE: Always follow lumber manufacturer's recommendations.

### Available Sizes: #14 x 2" to #14 x 14" and #17 x 4" to #17 x 9"

## WAFER HEAD LAG SCREW

Star  
Drive

Wafer  
Head

**ACQ**  
COMPATIBLE

- Black Ruspert Coating
- Aggressive Knurl
- Type 17 Point

TER 1911-04

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available. **WTX is not available in stainless.**

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- ACQ Compatible Ruspert coating in an attractive matte black finish useful with many brands of outdoor or indoor decorative hardware
- Peak Performance™ Lubrication, reducing torque for a smoother drive
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Aggressive knurl enlarges hole to reduce splitting and drag to help draw lumber together
- V-Cut notches on threads to cut fibers for easier insertion at lower torque
- Type 17 tip for faster precise starts which eliminate "walking"
  - Provides easier insertion without pre-drilling
- Built-in Flat washer head to increase pull through strength and leaving behind a smooth flush head
- Aggressive Thread for great withdrawal strength
- Structural Lag Screw - backed by certified independent testing

### COMMON USES INCLUDE:

- Log Construction
- Timber Frames
- Laminated Beams
- Girders
- Ledger Boards
- Stair Rails
- Deck Posts
- Fencing
- SIP Panels (Structural Insulated Panels)
- Pole Barns
- Pergolas
- Decorative Black Hardware

*NOTE: Always follow lumber manufacturer's recommendations.*

53 N. 15TH STREET STE #1 • BILLINGS, MT 59101 • 1.800.726.4803

### BENEFITS & FEATURES:

- Heat treated and hardened steel for high tensile strength and high shear strength
- Triple layer ACQ compatible Bronze coating for exterior or interior use on 4-1/2" screws
- Triple layer ACQ compatible Hi-Viz coating for exterior or interior use on 6" screw
- Peak Performance™ Lubrication, reducing torque for a smoother drive
- Type 17 Tip minimizes the torque needed for a quick start
- Cylinder-Style Head easily countersinks into the wall plates eliminating interference with wall finishes
- Fully threaded shank for superior holding power between wall framing members and roof trusses.
- Plastic installation guide tool and 2" T30 Bit included with each package to guarantee proper installation
- Structural Wood Screw – Backed by certified independent testing (TER 2411-123)
- International Building Code and International Residential Building Code Compliant

### COMMON USES INCLUDE:

- Provides stud to bottom plate (4-1/2") or stud to top plate (6") connections
- Provides double top plate to truss/rafter connections (6")

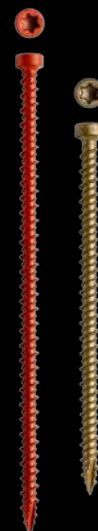

*NOTE: Always follow lumber manufacturer's recommendations.*

## SOFT WOOD DECK SCREW

Star  
Drive

Bugle  
Head

**ACQ**  
COMPATIBLE

- Bronze Coating
- Star Drive
- Type 17 Point

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners.

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- Triple Layer ACQ Compatible Bronze Coating for Exterior or Interior use
- Peak Performance™ Lubrication, reducing torque for a smoother drive
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Under-head cutting nibs to aid in self countersinking
- Duo-Thread design is great for:
  - Proper seating
  - Back-out feature for floor joists that are missed during fastener installation
  - Helps to prevent spinouts in soft wood and end grain
- Aggressive knurl enlarges hole to reduce splitting and drag to help draw lumber together
- V-Cut notches on threads to cut fibers for easier insertion at lower torque
- Type-17 tip for faster precise starts which eliminate "walking"
  - Provides easier insertion without pre-drilling
- Aggressive thread for great withdrawal strength
- International Building Code and International Residential Code Compliant

### COMMON USES INCLUDE:

- Decking Boards
  - Cedar
  - Redwood
  - Treated Lumber
- Exterior and Interior Wood Framing
- Subfloor Installation
- General Wood Construction

*NOTE: Always follow lumber manufacturer's recommendations.*

# FHD

## WOOD-TO-STEEL SELF-DRILLING SCREW

Star  
Drive

Flat  
Head

**ACQ**  
COMPATIBLE

- Deep Chip Cavity
- Self-Drilling
- Metal Wings

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, using the proper size, grade and type of Big Timber Stainless Steel Fasteners should be considered if available. FHD is not available in stainless.

### BENEFITS & FEATURES:

- High-Quality Heat-Treated Steel for high tensile and superior shear strength
- Works on hard and soft woods
- Flat head for smooth flush surface
- Deep Six-Lobe Star Drive Recess reduces cam-out and end load
- Handles 2X the torque of Phillips or square drive while extending the life of the bit
- Self-Drilling Tip gives screw a drill capacity (through metal) up to 1/4"
  - Recommended Drill Speed is 2000 RPM
- Deep Chip Cavity collects metal shavings to prevent interference with cutting threads
- Metal wings on the screw shank are designed to ream out the wood then break off when they encounter metal
  - Wings prevent the screw thread from engaging into wood before the metal
- High Performance triple layer (ACQ Compatible) bronze corrosion resistant coating

### COMMON USES INCLUDE:

Ideal for fastening sheathing or dimension lumber to steel and/or aluminum such as:

- Truck Beds
- Trailers - Horse, Utility, ATV, Motorcycle, Snowmobile, and Flatbed
- Docks
- Wall Liners

*NOTE: Always follow lumber manufacturer's recommendations.*

**NOTE:** Overdriving may result in fastener failure. The fastener is fully seated when the head's bearing surface is flush with the material being attached. DO NOT OVER TORQUE and always follow lumber manufacturer's recommendations.

### Available Sizes • #10 x 1-5/8" to #14 x 3-1/4"

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement.

A Marmon |  
Berkshire Hathaway  
Company

53 N. 15TH STREET STE # 1 • BILLINGS, MT 59101 • 1.800.726.4803

### BENEFITS & FEATURES:

- Unique Corrosion-resistant brushed nickel finish
- Notched high/low thread design for easy installation
  - Unique qualities of the hi-lo thread specifications help minimize the amount of material displaced as the screw is driven into the material for superior holding power
- Head Styles:
  - Bugle head with star drive recess
  - Hex Head
- Great alternative to wedge anchors and plugs
- Available in 3/16" and 1/4" diameter
- Lengths 1-3/4" - 3-1/4"
- Concrete/Masonry Screw with Drillcrete® Technology backed by certified independent testing ( ESR-4420 and ESR-4421)
- International Building Code and International Residential Code Compliant
- ACQ Compatible
- Optimal performance for light/medium duty applications in:
  - Concrete / Masonry block / Brick materials / Wood base materials

### COMMON USES INCLUDE:

- Used to anchor materials to concrete, cinder block, and brick such as:
  - Wood
  - Metal
  - Plastic
- Numerous wood-to-concrete and steel-to-concrete applications
  - a. Shelving brackets
  - b. HVAC strapping
  - c. Sill plates
  - d. Furring strips
  - e. Post bases
  - f. Baluster posts
  - g. Door thresholds
  - h. Door frames

*NOTE: Always follow lumber manufacturer's recommendations.*

**Use a Variable Speed Drill to drive the screws after the pilot hole has been drilled with a Hammer Drill**

- The proper depth of the pilot hole is dependent upon the material being fastened to the concrete
  - Pilot holes for concrete screws should be at least 1/4 in. deeper than the screw will penetrate to allow a little extra space for dust accumulation from the hammer drilling process
- Keep constant pressure on the screw and run the drill at slow to medium speed
  - Heavy-duty drills work best because they can maintain a steady slow speed
- Drive the anchor in one steady and continuous motion until fully seated at the proper embedment.
  - Driving at high speeds **may** result in fastener failure

**NOTE:** Overdriving may result in fastener failure. The fastener is fully seated when the head's bearing surface is flush with the material being attached. DO NOT OVER TORQUE and always follow timber manufacturer's recommendations.

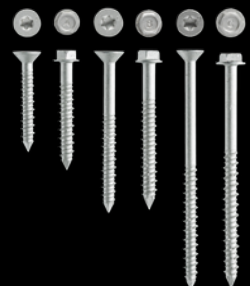

### Available Sizes

## COMPOSITE DECK SCREW

T-20  
Star  
Drive

Cylinder  
Head

**ACQ**  
COMPATIBLE

- Exterior Coating
- Dual Thread
- Type 17 Point

Scan for Tech Data

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available. **CD is not available in stainless.**

### BENEFITS & FEATURES:

- Heat-treated hardened steel for high tensile strength and high shear strength
- 1200 HR ACQ compatible coating for exterior or interior use
- Deep six-lobe star drive recess reduces cam-out end load
- Handles 2X the torque as Phillips or Square Drive while extending the life of the bit
- Offers a clean finish look in all types of deck boards to include:
  - Cap-stock decking
  - PVC decking
  - Composite decking
- Dual under-head cutting nibs to aid in self countersinking
- 10° tapered head design and the reverse threads to prevent mushrooming or "volcanoing"
- Dual-thread (fine/coarse) cuts through fibrous materials with ease reducing torque
  - Maximized holding power
- Type-17 tip for faster precise starts which eliminate "walking"
  - Provides easier insertion without pre-drilling
- Available in 8 common composite deck board colors:
  - Cape Cod Gray
  - Latte
  - Castle Birch
  - Mocha
  - Gray Birch
  - Rustic Cedar
  - Graystone
  - Walnut

### COMMON USES INCLUDE:

- Composite Deck Board Installation
- Composite Fascia Board Installation
- Composite Railings
- Composite Trim Boards
- Wood Siding

*NOTE: Always follow lumber manufacturer's recommendations.*

Big Timber Fasteners drywall screws are engineered for professional results, delivering superior holding power and a clean, consistent finish. Whether you're working with drywall, wood, or metal studs, our screws provide the reliability you demand. Available in both fine and coarse thread options, and a variety of lengths, Big Timber Fasteners has the perfect screw for every drywall application.

## BENEFITS & FEATURES:

- **Clean Black Phosphate Coating (DWC or DWF):** Provides excellent corrosion resistance and a smooth, low-glare finish. Ensures a professional look and minimizes surface imperfections.
- **Durable Yellow Zinc Coating (DCY):** Offers enhanced corrosion resistance, ideal for high-moisture environments or projects requiring extra protection.
- **Precision Engineered Threads:** Our screws are designed for fast, easy driving and exceptional holding power.  
*Choose the perfect thread for your project:*
  - **Fine Thread:** Ideal for attaching drywall to metal studs, providing a secure and stable hold. Minimizes stripping and wobble.
  - **Coarse Thread:** Optimized for fastening drywall to wood studs, offering superior grip and pull-out resistance.
- **#2 Phillips Drive:** All Big Timber Fasteners drywall screws feature a reliable Phillips drive for easy installation and reduced cam-out.
- **Variety of Lengths:** Available in a range of lengths to accommodate various drywall thicknesses and project requirements.  
- See chart below for available sizes.
- **High-Quality Steel:** Manufactured from premium steel for strength and durability, preventing breakage and ensuring long-lasting performance.
- **Consistent Quality:** Rigorous quality control measures guarantee consistent performance and reliability in every box.

➤ **DWC - 6 x 1" - 6 x 2"**  
➢ 8 X 2-1/2" & 8 X 3"

# METAL ROOFING SCREWS

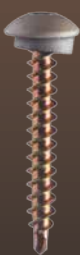

T-25 Star Drive

#1/4" Hex

- Deep Sharp Threads
- Micro-Bit Tip
- EPDM Sealing Washer

Compatible with treated lumber, but areas within one mile of saltwater, near swimming pools, exposure to corrosive chemicals, or other areas where corrosion is more likely to occur, such as livestock confinement, use the proper size, grade and type of Big Timber Stainless Steel Fasteners. Big Timber Stainless Steel Fasteners should be considered if available. Metal Roofing Screws are not available in stainless.

A Marmon |  
Berkshire Hathaway  
Company

53 N. 15TH STREET STE #1 • BILLINGS, MT 59101 • 1.800.726.4803

## BENEFITS & FEATURES:

- Designed to withstand harsh and changing weather conditions
- Equipped with EPDM sealing washer to create a watertight seal to prevent leaks
- Features a micro-bit to eliminate the need for pilot holes for efficient installation
- Features deep sharp threads to maximize holding power and minimize stripping
- Available in a variety of colors to match or blend with the roofing material
- Available in two different drive types; 1/4" Hex and Star Drive (T25)

## COMMON USES INCLUDE:

- **Post-Frame Buildings:** Ideal for attaching metal roofing and siding panels to wood framing
- **Residential Metal Roofing:** Secure fastening for metal roof installations on homes
- **Agricultural Buildings:** Suitable for barns, storage sheds, and other farm structures
- **Carports and Garages:** Durable attachment of metal panels in outdoor structures
- **Pole Barns:** Reliable for securing metal roofing and siding to pole barns
- **Workshops and Sheds:** Long-term performance in smaller utility buildings

## Available Sizes: 10 x 1" - 10 x 2"

# WESTERN BUILDERS SUPPLY

## TERMS AND CONDITIONS

Western Builders Supply, Inc. makes no warranty or merchantability or fitness for any particular purposes or any warranty expressed or implied. We shall not be responsible for consequential damages. Western Builders Supply, Inc. is selling commercial quality fasteners with not representation of conforming to government or other specifications unless specifically stated. Western Builders Supply, Inc. reserves the right to under or over ship product by 10%. Standard payment terms are **NET 20 days from date of invoice**. Product received as damaged must be signed for as damaged to receive credit. All claims for errors or shortages must be reported within 7 business days of receipt of goods. Product may not be returned after 60 days of receipt. Should you need to return product, contact customer service at 800-726-4803. All product for return credit must be accompanied by a Return Materials Authorization (RMA) number. Returned product will not be accepted unless accompanied by a RMA and shipped via the specified carrier when WBS is responsible for return freight. Sales are subjected to WBS terms and conditions that can be found at [www.bigtimberfasteners.com/terms-conditions](http://www.bigtimberfasteners.com/terms-conditions)

Western Builders Supply stands behind the products we sell. We offer technical assistance to help our customers select the right product for a particular application, but selection of the right product is the responsibility of the customer.
